FROM THUGS TO **WILLIAM FRENCH**

Burglars Enter South Central Avenue Home In Search of Diamonds; Secure \$20

"Lie still or I'll blow your brains

The voice wasn't very pleasant, the suggestion wasn't very inviting and it was backed up by a loaded re-volver in the hands of a man of questionable character. William H. French of 1002 South

Central avenue obeyed. Shortly after 11 o'clock last night he was awakened from peaceful slumber in his downstaire bedroom off the living room by burglars who had gained an entry through a window in the living room. Before he could arise, one of them had entered his room, flashed a searchlight upon him and given him the aforesaid "orders of the night."

Across the back of a chair hung Mr. French's trousers. From a pocket of these was quickly extracted a gray wallet containing \$20. Meanwhile, Mrs. F. S. Julian up-

stairs heard the command and later In his surprise he jumped of bed and landed "thump" with feet on the floor-just like that

Anxious to Get 'Em!

"Pete, they're up!" exclaimed a

hoarse voice downstairs. Mr. Julian by this time had gotten his Colt, was aching to get at 'em and was only restrained by his wife who considered the possibility of murder. A moment later the screen door brother-in-law, Mr. Julian, arrived on the front porch just in time to see two men, one considerably taller than the other, dash across the lawn

towards Southern Glendale. The Glendale police department was notified by phone immediately and several officers responded to the by George H. OFFERS HELP TO SICK VETERANS

Camp In Vicinity of Tujunga to Be Equipped for Those Who Desire It, Announced

If any of the former service men in the shadow of the Verdugo hills, the women of the American Legion auxiliary, Glendale post No. 127, will see to it that they are provided food and place to sleep.

This was the decision reached last night after a long conference over the United States Veterans' Welfare among the injured were estimated to number around 100. All tele- Glea Eyrie chapter of the Eastern board order closing the local insti-tution for tuberculars. Several of the men with families are deter-mined to remain, it was reported. So the Legionnaires and their going to equip a little camp somewhere in the vicinity of Tujunga where the three or four who stay will get the opportunity they desire to recuperate. One of the boys visited the Chamber of Commerce yesterday and told Secretary Rhoades

"If I can't get well here I might as well go out in the street and lit down and die as to be sent from pillar to post by the government. So I'm through. I am going to stay here in the hills. I sacrificed a good ich in the government. good job in the east to enter the army and here I am today, hardly able to come here and tell you how I appreciate your efforts"—and he faded away through the door like a grim

Daily HEALTH-AGAIN

TALKS By Dr. Otey

Is Osteopathy Good for Children? Yes,

Bring the children. Non-development in children as well as lowered vitality in the adult is usually due to some hidden lesion is often discoverable and removable only by the trained Osteopath. In fact many of the weaknesses and diseases of adult life are traceable directly to lack of attention to the body structure during the growing years, such attention as only the Osteopath

What intelligent parent now allows his or her child to grow to maturity without the benefits of Dental inspection and care? They do not want their child to grow up with crooked or defective teeth, but that is a detail of minor importance compared with the crooked, defective spines, the distorted chest, the undeveloped physical and mental qualities resulting from neglect to take the child to the Osteopath for inspection and care. Proper Osteopathic attention to tention to the growing child will very often result in better health, a better constitution, better hearing, better eyesight, better mental development and better disease resisting ability and vastly better ability to take his share of the joy

CHRISTIAN SCIENCE LECTURE TOPIC AT LOCAL CHURCH

Talk Last Night; Brief Resume Is Presented

His subject was "Christian Science-

of healing which the great Master-Christian, Jesus the Christ, declared should exemplify the understanding rent circuit. That is, coming the the same time s rent, those truths of existence which given it by the life and works of Jesus has been lost or eliminated throughout the intervening centuries. Jesus taught that it was his source. understanding of God and God's gov-ernment of His universe which en-abled him to do the works of healing and regeneration he so freely accomplished throughout His brief ministry and of which he said in no unmistakable terms, "He that believ-eth in me, the works that I do shall

What He Established you will carefully follow the of Jesus as given in the New Testament and consider his works in connection with what he taught you will discover that what he did was merely to establish as a demonstrable plug to connect the head telephone easily used, and soldering of the fact what he taught, and that what receivers or "loud speakers" into its connections is never required. The he taught and did were said and circuit. done in accord with, and in explanation of, some immutable ever present, universal law. You will see, in other words, that his words and works were looking to the establishment with men of a divine, omnipotent, spiritual law which will eventually rule all mankind to the complete extinction of any so-called

opposed law and its effects.

And this Law of God—this Law, the knowledge and application of which Jesus said should make us free—is what Christian Science has come to re-establish with men. Those wonderful works of Jesus prove conclusively that laws of matter are not God's Laws and that God's Laws are not only superior but are actually laws of annihilation to so-called material laws and thereby prove that material laws are the product of a mortal misconception of what constitutes true law.

We find, with reassurance, that We find, with reassurance, that this Law of God is a law of Life—metal tips on the two free ends of not of death; a law of health—not the cord, but in the case of the "loud haps you have at times heard some

sinner, as Jesus did, naturally presents itself. This, my friends, is accomplished in Christian Science sole ly through the prayer of understanding. Christian Scientists have learned that what is to be achieved in the way of healing and saving must be done through such prayer, and that this prayer must be without ceasing. Our every thought, inclination and deed must be the outcome of a constant mental attitude of prayer if we would follow the Master in the way of his appointing.

Mary Baker Eddy, the discoverer and founder of Christian Science, has incorporated the fundamental teachings of Christian Science in her book, "Science and Health with Key to the Scriptures." This is the text-book of the Christian Science denomination. Through its study the secrets and obscurities of Holy Writ have been made plain and instead of a book of mystery the Bible has come to be the chart of life to thousands upon thousands to whom it this is not perfectly plain to you, has heretofore been closed.

OHIO NEARS FLOOD STAGE

Ohio river will reach a Hood stage of 50 feet here Wednesday morning, according to a bulletin issued this morning by Weather Forecaster W.C. Devereaux. Barring further heavy rains, the bulletin states, the waters will recede after reaching the 50-feet event. The river reached a stage of the state of the rate of three inches an hour.

I Know I Would Feel Better."

How often have you felt that way?

I ter loose coupler in series with my set, will I be able to increase the wave length? How can I increase it 25,000 meters?—M. A., Glendale. Answer: The loose coupler will not do the work very well; in fact, life, burglary, accident and health, automobile and every other kind of insurance reverse it may cut out the receiver signal. How often have you felt that way? it may cut out the receiver signal How often have you wished for altogether. You had better make or something to give you genuine and lasting relief from gas?

Don't buy any ordinary dyspepsia tablets for temporary results. Go to a first-class drug store and ask for a buy a single-slide tuning coil, and connect this in series with your aerial before it comes to the set.

Question: Does it make any difference but the set of general points.

Question: Does it make any difference how the polarity of the bat- Charles Baum Back

breathing, no bloating.

breathing feeling, no difficult battery connection to the plate of make much difference.

plug and connecting screws placed in one-half of a bakelite shell, after the connections have been made. The other half of the shell is then placed on top of the first half and a holding screw driven home to hold the two halves together. This holding screw goes into a brass collar and does not come into contact with the electrical circuit at any time. A tie cord can be looped around a little button to relieve the strain on the connectors if desired. The plug is very well made throughout and is really universal in the uses to which it may be put.

Know Good Stories? Anything of Interest?

By GEORGE VAN SANDS There are any number of our speaker" it is often necessary to use distant station, or perhaps due to

present needs, how to heal the sick, cured under the screws without the glad to publish your story in this comfort the sorrowing and save the so long as it relates to radio send it We want to make this column of direct interest to Glendale. All of us are naturally interested in radio or any news that pertains to it, regardless of what town, city or part of the country it comes from, nevertheless it is radio as relates to

> We also want you to feel perfectly free to call on the radio editor to G., Glendale.
>
> Answer: Connect the two terminals on the primary of the loose coupler to the aerial and ground, respectively. The movable part of the coupler is the secondary. Run a wire from one of these secondary leads to the detector from there to leads to the detector from there to leads to the detector, from there to and always for the sole benefit of

secondary of the coupler. The variable condenser should be connected umn. This invitation is issued to This invitation is issued to everyone; there are no restrictions whatever, but, simply to keep within the alloted space of this column, please limit your article to no more than approximately 300 words. Do not hold back for the reason that you might think you have not the necessary literary ability; we do not care anything about that; it's something interesting about radio that we want, the manner and style of how it is told counts for little.
